About This Game

one Button Multiplayer Party Game + Single Mode

Bouncy Bob is a simple indie game made by three passion driven yet experienced creators who wanted to make something different than the typical arcade game.

Gameplay:

Become a funny gnome named Bouncy Bob and defeat an army of the undead in single player mode. When you master the unique one button controls invite friends to kick some butt in local multiplayer mode. One of a kind game world is a combination of cartoon horror, German expressionism, light humor and doodle style. But it will not be a walk in the park! Lurking around are sharp spikes, grenades, and flying blades. Oh, and did I mention the bloodthirsty zombies?

Key Features:

- Standout controls, try it and soon you will forget that you've ever played using the typical 4 arrow setup
- Cartoonish violence with dynamic animations.
- 22 single-player/multiplayer arenas (more will be added as interest in the game grows).
- Funny characters and amusing world graphics.
- 3 levels of difficulty/speed (you can choose to play super fast, normal, or almost in slow motion).

**We hope that you will have as much fun
Playing the game as we had creating it.**
